

SOCIAL PARTICIPATION AND ACCOUNTABILITY WITHIN AND BEYOND THE COVID-19 PANDEMIC

TUES, 13 OCTOBER
14:00-15:30 CEST

We are pleased to invite civil society colleagues to the third CSO dialogue with the WHO Director-General Dr Tedros Adhanom Ghebreyesus. This session will *focus on three interrelated challenges in the promotion of social participation and accountability* as a core element of good governance within and beyond the COVID-19 pandemic:

- In its interaction with Member States on promoting social participation and accountability at country level, WHO to provide political leadership beyond technical guidance
- In its own fields of work and related institutional processes and arenas, WHO to consistently deal with civil society engagement as a matter of social participation and accountability
- Civil society organizations, networks and platforms to get better organized in the promotion of good governance at all levels and at the same consistently address own shortcomings in the field of participation and accountability
