UHC in East and Southern Africa: Advocacy landscape, progress and challenges

Onesmus Mlewa Kalama

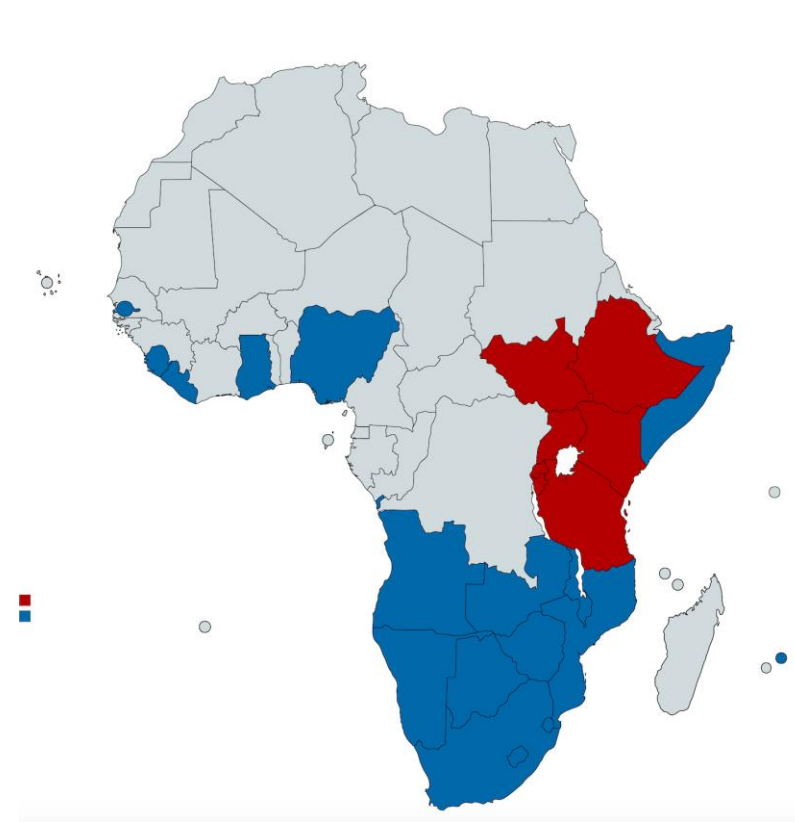

(EANNASO)

23/11/2021

ABOUT EANNASO

- A regional network of AIDS and health service organizations
- Hosts the Global Fund supported CRG Anglophone communication platform covering 23 African English and Portuguese speaking countries

What It means

Every person,
wherever they are,
should be able to
access and afford
quality health services

How to realize UHC

Increased Government
Domestic Funding for
Health to match Global
and regional
commitments

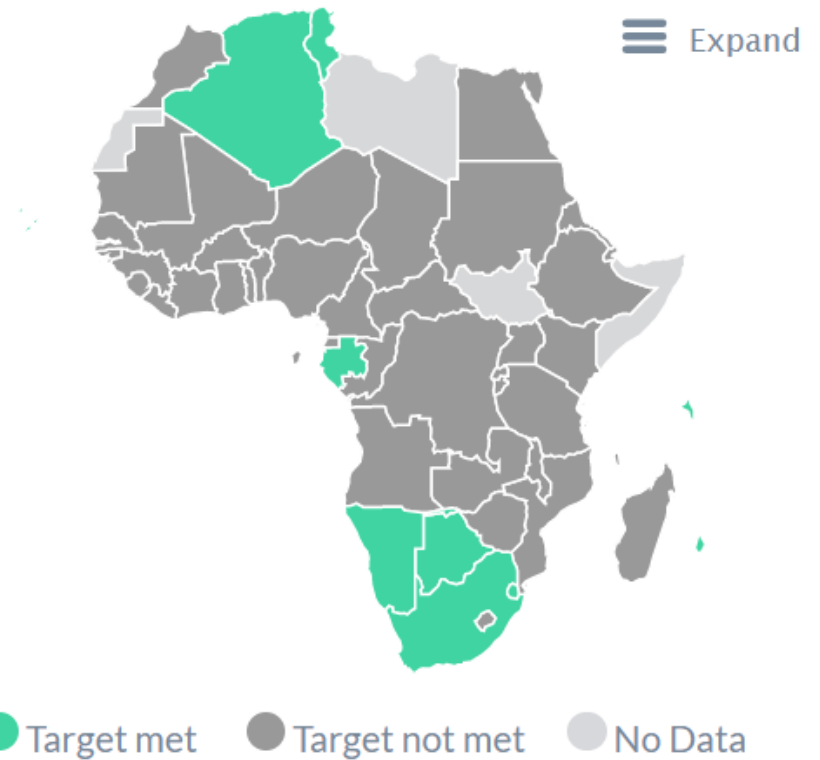

Where are we on Key Health financing commitments?

- Global per capita spending of 86.3 USD
- Abuja declaration of 5% GDP to health
- AU commitment of 15% Government spending

Per Capita Spending

Only 10 of 55 AU member states spent more than 86.3 USD per capita on health

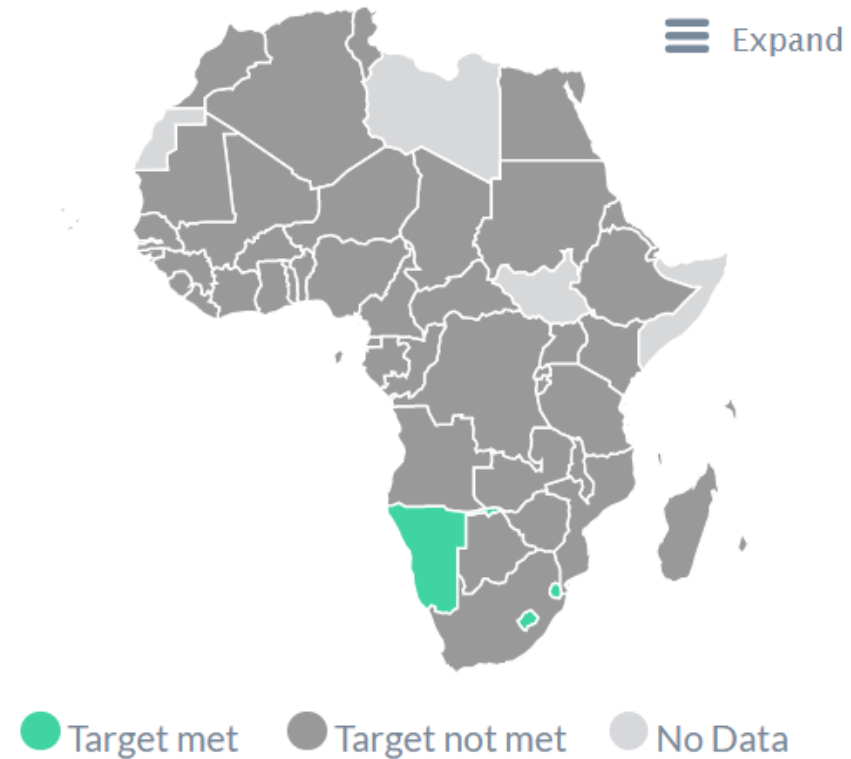

Benchmark #1: per Capita 

As a % of GDP

Only 3 out of 55 AU member states spent 5% and more of their GDP on health

Benchmark #3: as a % of GDP 

As a % of Government budget

Only 2 out of 55 AU member states spent 15% and more of their Government Budget on Health

Benchmark #5: as a % of Govt budget ⓘ

Challenges in realizing the UHC dream

- Some LMIC do not have enough resources within their economy to achieve UHC even after considering all options. These countries should receive additional financial assistance from donor community
- Inequitable spending of resources leaving some population groups with poor access
- Global Benchmarks of the cost of UHC may not adequately reflect specific funding challenges associated with particular population health needs such

Areas of advocacy

- Better spending and effective financial protection
- People centered services –quality and multisectoral action
- Targeting the poor and marginalized (equitable access) leaving no one behind
- Strengthening health security
- Stronger political and institutional foundations for the UHC agenda

Thank You
